FLEXLOC

MADE BY PREVEX

FLEXLOC – A REDESIGNED KITCHEN SINK WATER TRAP FOR LIFE

Flexloc is an optimal solution for any kitchen sink. It is a wall or floor mounted water trap with a refreshed Scandinavian look and design. Easily mounted, compact and durable enough to last a lifetime. And even better, it can be combined with all types of sinks and comes equipped with both horizontal and vertical telescopic features. The outlet for this water trap is 40/ 50 mm, which guarantees the perfect fit.

And what about overflow covers? We can manufacture customised covers to any specific requirements. Flexloc even has a wide range of accessories available for any configuration needed. When you need a water trap for a single or double-basin sink, Flexloc is the answer in every kitchen.
